

GONACHI CONTRACTOR DISCOVERY & OPPORTUNITY ENGINE

PRODUCT VISION

Create the largest searchable contractor database and contractor opportunity marketplace in Nigeria.

The platform helps:

- Property owners find trusted contractors
- Contractors get discovered online
- Contractors receive new job opportunities
- Clients compare contractors before hiring

The platform combines:

1. Contractor Directory
 2. Contractor Reviews
 3. Contractor Profiles
 4. Contractor Job Requests
 5. Contractor Bidding System
-

PHASE 1

BUILD CONTRACTOR DATABASE

Objective:

Populate Gonachi with contractor profiles before waiting for contractors to register.

This ensures the platform appears active and searchable from day one.

DATA COLLECTION

Backend continuously collects publicly available contractor business information.

Examples:

Plumbers

Electricians

Painters

Roofing Contractors

Builders

Interior Designers

Tilers

HVAC Technicians

Solar Installers

Property Maintenance Companies

General Contractors

PROFILE CREATION

For each contractor discovered:

System automatically creates profile.

Example:

Business Name

Service Category

Location

Phone Number (publicly available)

Website

Social Profiles

Business Description

Operating Areas

Reviews

Verification Status

Claim Profile Option

CLAIM PROFILE SYSTEM

Every contractor profile contains:

"Claim This Profile"

When contractor claims profile:

• Ownership verified • Additional information added • Portfolio uploaded • Certifications added • Service areas updated • Photos added

Claimed profiles receive:

Verified Badge

SEO STRATEGY

System automatically creates searchable pages.

Examples:

/plumbers-lagos

/electricians-ikeja

/builders-lekki

/roofing-contractors-port-harcourt

/interior-designers-abuja

PROFILE SEO PAGES

Each contractor receives:

Dedicated Profile URL

Examples:

/contractor/johnson-plumbing-lagos

/contractor/elite-builders-lagos

/contractor/abc-electrical-services

These pages become indexable by Google.

SELF-DISCOVERY LOOP

Contractor searches own business name.

Finds Gonachi profile in search results.

Visits profile.

Sees incomplete information.

Claims profile.

Updates profile.

Platform acquires contractor.

PHASE 2

JOB REQUEST ENGINE

Objective:

Generate recurring reasons for contractors to return.

CLIENT ACQUISITION

Users searching online discover pages such as:

Find A Plumber In Lagos

Need Electrician In Ikeja

Best Contractors Near Me

Get Multiple Contractor Quotes

CLIENT ONBOARDING

User lands on Gonachi.

System asks:

What service do you need?

Examples:

Plumbing

Electrical

Painting

Building Construction

Interior Design

Renovation

Solar Installation

REQUEST SUBMISSION

Client completes request.

Fields:

Service Required

Location

Budget

Project Description

Photos

Timeline

LONG-TERM VISION

Become the default platform where contractors discover opportunities and where property owners discover trusted contractors.

The contractor directory drives SEO and discovery.

The job request engine drives retention and recurring engagement.
