

GONACHI LANDLORD & TENANT VALIDATION ENGINE

PRODUCT VISION

Create the largest searchable database of landlord and tenant records in Nigeria.

The platform helps:

- Tenants avoid problematic landlords
- Landlords avoid problematic tenants
- Renters discover available rental opportunities
- Property history become more transparent

The platform functions similarly to a credit bureau, but for renting.

PHASE 1 ACQUISITION STRATEGY

Target users already searching online for:

- Quit Notice
- Eviction Notice
- Landlord Problems
- Tenant Problems
- Rent Disputes
- House Rent Issues
- Rental Advice

These users have high emotional motivation and are likely to engage.

USER FLOW

STEP 1

Tenant searches Google.

Examples:

"Quit Notice Nigeria"

"My landlord gave me quit notice"

"Can landlord evict tenant in Lagos"

"Tenant rights Nigeria"

STEP 2

Tenant lands on Gonachi page.

Headline Example:

"Report A Landlord And Help Other Tenants Avoid Rental Problems"

or

"Check If Your Landlord Has Previous Complaints Before Renting"

STEP 3

User clicks:

Report Landlord

STEP 4

Contribution Form

Property Address

Landlord Name

Property Type

Duration Of Tenancy

Issue Type

Optional Documents

Building Pictures

Supporting Evidence

Additional Notes

STEP 5

System creates record.

Example:

Property:

House 14 Lekki

Landlord:

Mr X

Verification Score:

40%

Reports:

1

Photos:

Available

Status:

Unverified

STEP 6

Contribution Reward

Immediately after submission.

Display:

"Thank You For Contributing"

Then unlock:

- Rental Opportunity Feed
- Landlord Search
- Complaint Search
- Rental Property Discovery

This is the reward for contribution.

RENTAL OPPORTUNITY FLOW

System displays:

50 New Rental Opportunities In Lekki

30 New Rental Opportunities In Yaba

20 New Rental Opportunities In Ikeja

STEP 7

Tenant clicks property.

Property Preview appears.

95%

DATABASE GROWTH MODEL

Stage 1

System imports publicly available property information.

Stage 2

Users contribute landlord and tenant records and allow Landlords to Claim their properties.

Stage 3

Verification system strengthens records.

Stage 4

Community reviews increase trust.

Stage 5

Database becomes self-sustaining.
