

GONACHI REAL ESTATE LEAD ENGINE

PRODUCT VISION

Gonachi will become a platform that helps realtors discover active home buyers and home sellers who have publicly expressed interest in buying, selling, investing in, or renting property.

The primary value proposition is simple:

"Find people who are actively looking to buy or sell property."

This creates an immediate win for realtors because they can discover opportunities within minutes of signing up.

TARGET USER

Primary User: • Realtors • Real Estate Agents • Property Consultants • Brokers

Primary Pain:

"I need more property buyers and sellers."

HOW THE SYSTEM WORKS

STEP 1

Backend continuously searches public sources for real estate intent signals.

Examples:

• Looking for property • Looking to buy land • Looking for house in Lagos • Looking to sell property • Need realtor recommendation • Seeking investment property

Sources may include:

• Public forums • Public social posts • Public request boards • Property communities • Public business directories • Publicly available property requests

STEP 2

Backend extracts and stores:

• Request Type • Buyer or Seller • Location • Budget (if available) • Date Posted • Source • Intent Level • Public Contact Information (if publicly provided)

STEP 3

System automatically categorizes requests.

Examples:

Home Buyers in Lagos

Home Sellers in Lagos

Land Buyers in Port Harcourt

Property Investors in Abuja

Commercial Property Buyers in Lagos

STEP 4

System generates searchable pages.

Examples:

/home-buyers-lagos

/home-sellers-lagos

/home-buyers-port-harcourt

/property-investors-abuja

Pages are updated automatically as new opportunities enter the database.

SEO STRATEGY

Every lead category automatically creates indexable pages.

Examples:

Home Buyers in Lagos

Home Buyers in Abuja

Home Sellers in Lagos

Home Sellers in Port Harcourt

Property Investors in Nigeria

Land Buyers in Lagos

Commercial Property Buyers in Abuja

As lead volume increases in a location, the system automatically creates and updates corresponding pages.

This creates a scalable SEO acquisition engine.

LONG-TERM VISION

Become the largest searchable database of active real estate opportunities in Africa.

Instead of helping people list properties, Gonachi helps professionals discover people who are actively looking to buy, sell, invest, or rent property.
